EQUATORIA AFRICA LIMITED

ABOUT US

Equatoria Africa Limited offers a comprehensive agribusiness solution in Tanzania. We provide high-quality and affordable inputs, including pesticides, fungicides, herbicides, fertigation products, spraying equipment, and seeds.

Our services include training, agro-support, on-site agronomy, and advisory. We continuously research and introduce innovative agrochemicals to improve crop quality and income. With a wide distribution network and professional support, we help Tanzanian farmers achieve high yields and growth.

WHAT WE DO

Crop Protection

Farm Equipments

Vegetable Seeds

Fertilizers

AGROCHEMICALS

INSECTICIDES

EQUOTOXIN 56%
(Aluminium Phosphide 56%)

An insecticide, rodenticide and fumigant for use in stored cereal grains.

SUPAFROCE 720 EC
(Profenofos 720G/L EC)

A broad spectrum insecticide-miticide for the control of a wide range of pests on several crops.

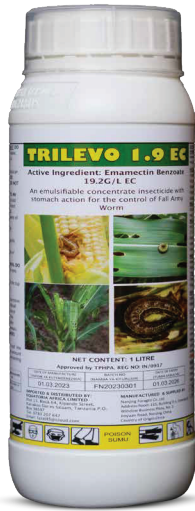

DRIVER 500 EC
(Dichlorvos 500G/L EC)

A multi-use insecticide that can be used for the control of household and public health insect pests. It is also used on a wide range of crops for the control of sucking and chewing pests.

KATA 112 EC (Acetamiprid 64G/L + Emamectin Benzoate 48G/L EC)

A non-systemic insecticide with stomach action, once ingested by larvae it acts on nerve cells to suppress muscle contraction and as a result, the insect is paralyzed immediately after ingestion.

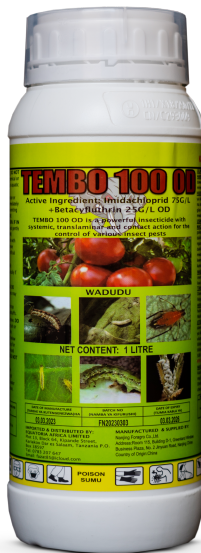

**TRILEVO 1.9 EC
(Emamectin Benzoate 19.2G/L)**

An emulsifiable concentrate insecticide with stomach action for the control of various pests in a wide range of crops.

**SUPERDOM 415 EC (Dimethoate
400G/L + Alphacypermethrin 15G/L)**

A broad spectrum miticide insecticide used to control chewing and sucking pests in a wide range of crops.

**TEMBO 100 OD (Imidachloprid
75G/L + Betacyfuthrin 25G/L OD)**

A powerful insecticide with systemic, translaminar and contact action for the control of various insect pests.

**EQUJUST 113 DP – (Fenitrothion
1.0% + Deltamethrin 0.13%)**

A superior insecticide used for the protection of stored grains.

ACTION DUST 2%
(Pirimiphos-Methyl 20G/KG)

A broad spectrum insecticide for use in grain, grain stores and for residual fly control.

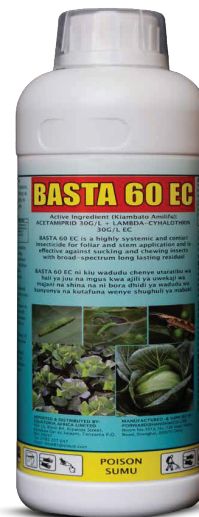

DEFEND 48 EC
(Chlorpyrifos 480G/L EC)

A broad-spectrum, organophosphade non-systemic insecticide with contact, stomach and respiratory action and controls a wide range of pests in vegetable, fruit and commercial crops

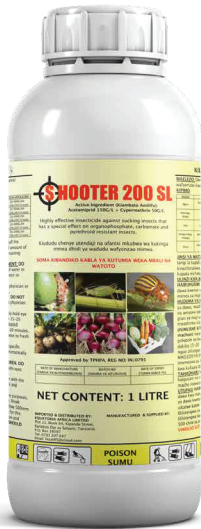

SAMURAI 5 EC
(Lambda-Cyhalothrin 50G/L EC)

An emulsifiable concentrate contact and stomach insecticide for the control of insects on various crops.

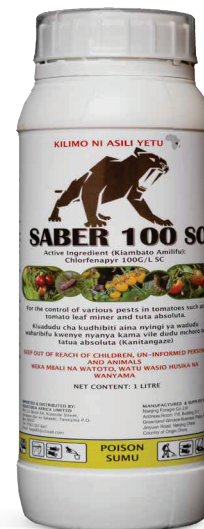

BASTA 60 EC (Acetamiprid 30G/L + Lambda-Cyhalothrin 30G/L EC)

BASTA 60 EC (Acetamiprid 30G/L + Lambda-Cyhalothrin 30G/L EC) – A systemic and contact insecticide for foliar and stem application and is effective against sucking and chewing insects.

SHOOTER 200 SL (Acetamiprid 150G/L + Cypermethrin 50G/L SL)

A highly effective insecticide for the control of sucking insects on a wide range of crops.

SABER 100 SC (Chlorfenapyr 100G/L SC)

For the control of various pests and tuta absolute in a wide range of vegetable crops

METAFUR 120 EC (Acetamiprid 100G/L + Abamectin 20G/L EC)

For the effective control of nematodes and insect pests on a wide range of vegetable crops.

SIMBACRON 500 EC (Profenofos 500G/L EC)

An emulsifiable concentrated insecticide/ miticide with contact, stomach and translaminar action for the control of various insects in a wide range of crops.

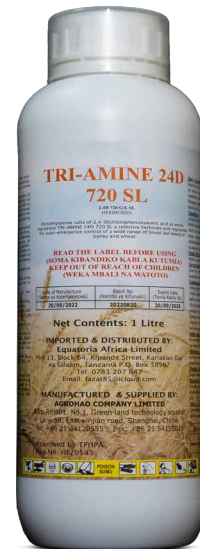

AGROCHEMICALS

HERBICIDES

GREEN FIELDS 660 SC (Metolachlor 390G/L + Atrazine 270G/L SC)

A suspension concentrate herbicide for the control of selective, pre and early post emergence weeds, annual grasses and broadleaf weeds in various crops such as Maize, Sugarcane, Groundnuts, Soybeans and potatoes.

TRI-AMINE 24D 720 SL (2.4D 720 G/L SL)

A selective systemic herbicide with post emergence control of annual and perennial broad-leaved weeds in a wide range of crops.

MUPAFLURON 240 EC (Oxyfluorfen 240G/L EC)

A selective herbicide for the control of certain annual grasses and broadleaf weeds.

GLYRASER 480 SL (Glyphosate 480G/L SL)

A herbicide for the control of broadleaf weeds and grasses in zero/minimum tillage and annual and perennial weeds.

SUPERVANON 260 OD (Nicosulfuron 2% + Terbutylazine 20% + Mesotrione 4% OD)

SUPERVANON 260 OD (Nicosulfuron 2% + Terbutylazine 20% + Mesotrione 4% OD) – A unique mixture of 3 effective herbicides which provides long lasting weed management in maize.

MUPACAMBA 480 SL (Dicamba 480G/L SL)

A systemic herbicide for the control of a wide range of broadleaf weeds.

LIBERTY 280 SL (Glufosinate-Ammonium 280G/L SL)

A non-selective broad-spectrum herbicide for the control of a wide range of annual and perennial broadleaf weeds and grasses

The background is a lush green tea plantation under a cloudy sky. The image is overlaid with three bright green rectangular blocks: one in the top right corner, one on the left side, and one in the bottom right corner. A thin green horizontal line passes through the center of the page, intersecting a circular icon.

AGROCHEMICALS

FUNGICIDES

BOLT 72 WP (Metalaxyl 8% + Mancozeb 64% WP)

BOLT 72 WP (Metalaxyl 8% + Mancozeb 64% WP) – A wettable powder systemic and contact fungicide with broad spectrum activity against fungal diseases in a wide range on crops.

RIP 76 WP (Cymoxanil 60G/K + Mancozeb 700G/KG WP)

RIP 76 WP (Cymoxanil 60G/K + Mancozeb 700G/KG WP) – A protective and curative broad spectrum systemic fungicide that can be used on a wide range of crops.

MUPASALFA 80 WDG (Sulphur 80G/KG WDG)

A multi-faceted product designed for a variety of uses in a range of crops.

SULPHUR YA MAJI 55.16SC (Sulphur 55.16% SC)

A water based liquid Sulphur fungicide with contact and protectant action and having acaricidal activity as well.

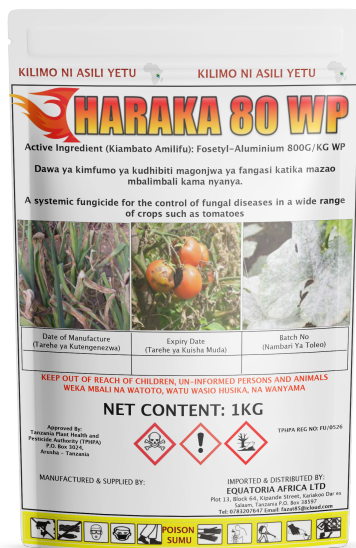

SUPAVIL 5SC (Hexaconazole 50G/L SC)

A broad spectrum suspension concentration systemic fungicide for the control of angular leaf spot in crops.

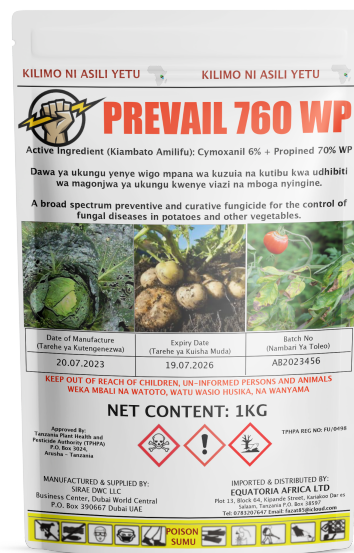

SUPREME 250 EW (Tebuconazole 200G/L EW)

Systemic broad spectrum fungicide with protective, curative and eradicator action, rapidly absorbed into the vegetative parts of the plant.

HARAKA 80 WP (Fosetyl-Aluminium 800G/K WP)

A systemic fungicide for the control of fungal diseases in a wide range of crops.

PREVAIL 760 WP (Cymoxanil 6% + Propined 70% WP)

A broad spectrum preventive and curative fungicide for the control of fungal diseases in a wide range of vegetable crops.

A landscape photograph of a field at sunset. The sky is filled with soft, golden light and scattered clouds. The foreground shows rows of green plants in a field. The overall color palette is dominated by warm tones of orange, yellow, and green. There are three solid green rectangular overlays: one in the top right corner, one on the left side, and one in the bottom right corner. A thin horizontal line passes through the center of the image, intersecting the logo.

 **NPKS**

PROGROW BOOSTER (NPK 19:19:19 + TE)

PROGROW BOOSTER (NPK 19:19:19 + TE) – A water soluble fertilizer with an optimum combination of Nitrogen, Phosphorous, Potassium and Sodium and can be used on fruiting and all plants to increase disease resistance and keep soil healthy.

ProGrow SHUJAA BOOSTER (NPK 12.10.8 +TE)

A direct and fast nutrient for stressed and deficient crops. Can be applied for nutritional balance in heavily bearing plants.

A red tractor is shown in a field of green crops, likely corn, under a clear sky. The tractor is positioned on the right side of the frame, facing left. It has large, treaded tires and a front loader. The background is a vast field of green plants stretching to the horizon. The sky is a pale, clear blue. There are four solid green rectangular blocks: one in the top right corner, one on the left side, one in the bottom right corner, and a thin horizontal line across the middle. The text 'EQUIPMENTS' is centered in the middle of the image, with a red dot and a circle to its left.
